## THE NEWS OF THE WEEK.

A Daily Resume of Important Happenings.

The Knoxville and Ohio railroad was mortgaged at Knoxville for \$3,000,000.

John Murray Dowle, in an interview at his home in Essex, La., asserts that John Alexander Dowle is his son, and that the fact can be established by records at Edinburgh, Scotland.

Dr. W. Godfrey Hunter was notified that a meeting of the Eleventh district committee had been called by J. S. Cooper at London to take up the Edwards-Hunter contest. Dr. Hunter will not attend and denounces the meeting as a political trick. Judge W. E. Settle, of the Court of Appeals, will hear the appeal from Judge Faulkner's decision granting the injunction to Edwards.

A fire broke out in the Vatican Saturday evening. The excitement in Rome was very great and the city officials entered St. Peter's for the first time since the fall of the temporal power of the papacy. Pope Pius spent some time at the scene of the blaze and aided in directing the work of extinguishing the fire. The damage is heavy, but no lives were lost.

In his annual report Commissioner Richards, of the General Land Office, says there is a large increase in fraudulent land entries. Ten thousand entries have been suspended in California, Oregon and Washington, and fifteen special agents are at work in that field. Secretary Hitchcock, of the Interior Department, in a statement regarding these fraudulent entries, says there is no truth in the report that Senators or Congressmen are involved.

Funeral services over the body of Mrs. Emma Booth-Tucker were held yesterday afternoon in Carnegie Hall, New York. Commander Booth-Tucker and others delivered addresses and a cablegram from Gen. William Booth was read. Herbert Booth, of the volunteers, was present and twice asked permission of Commander Booth-Tucker to speak, but it was each time refused.

The Chinese Government is greatly disturbed over the re-occupation of Mukden by the Russian forces, and is appealing to friendly foreign legations for aid and advice. According to a statement at Peking the Chinese officials at Mukden were ejected while their Foreign Office was negotiating on the subject with Paul Leas, the Russian Minister.

The report of the receiver of the Shipbuilding Trust was made public yesterday. It makes sensational charges of falsification, swindling and fraud in the organization of the company and recommends that suit be brought against Charles M. Schwab and the promoters. The whole affair is discussed as "wholesale plunder."

Both parties will hold caucuses in Washington Saturday. Joseph G. Cannon will be nominated by the Republicans for Speaker of the House. John S. Williams, of Mississippi, will not doubt receive the complimentary nomination of the Democrats for Speaker.

Appellate Judge Warner E. S. T. handed down a decision Monday solving the long-standing question of the counties in the Eleventh congressional district from pulling the name of Dr. W. Godfrey Hunter on the ballot as the Republican nominee for Congress. He holds that the courts have no jurisdiction to decide the controversy, that power being vested in the government authority of the party. He further holds that the name of the nominee selected by the governing committee could be placed under the party emblem at any time, provided the ballots could be prepared in time for the election. The decision is a victory for Dr. Hunter.

## PUPILS MADE BIG MAP

California Students Show Interesting World's Fair Exhibit.

### COUNTY DONE IN PAPER MACHE

One California County Raises a World's Fair Fund of \$20,000 and Devotes \$3,000 to Showing Her Educational and Social Advantages.

Alameda county, California, will make an exhibit at the World's Fair that will be a credit to many a state. The supervisors of that county have appropriated about \$20,000 for the purpose, and of this amount \$3,000 will be used in installing the educational exhibit. F. O. Crawford, superintendent of schools in Alameda county, will have charge of the exhibit, and he will personally conduct the installation and will remain in charge during the exposition.

Alameda county is an irregularly-shaped tract, comprising about 1,200 square miles, being about the size of Rhode Island, and with a population of 100,000. It is in the extreme western part of California, and San Francisco bay forms part of its western boundary. The assessed valuation of the property of the county is \$100,000,000, and the school fund raised last year was \$229,000.

One of the striking features of Alameda county's educational exhibit will be a paper mache relief map of the county, 14x20 feet, made by the pupils of the public schools. The map will be carefully compared by the county civil engineer, and at the close of the Fair will be returned to Oakland, the county seat, where it will be placed in the rooms of the county surveyor and kept as the official map of the county.

The map will be inclined against the wall and every hill and valley will be developed. The highest part of the map will be about 14 inches above the sea level. Every railroad and public road in the county will be shown. Every schoolhouse, every public building, each township and city and village will be shown, and a perfect scale maintained. The school children will do the actual work of forming the map, but the coloring will be left to the county surveyor. The site of each schoolhouse will be marked by a small photograph of the school building that occupies it. Larger photographs showing the buildings in detail, will be contained in books, to which those who care to see may have access.

Another feature of interest will be the series of reproductions of Alameda county school rooms. Mr. Crawford obtained free space in the Education Palace for this exhibit and will build a room 30x40 feet. At one time it will be fitted up to represent the kindergarten room in a particular Alameda county school. The identical furniture will be installed, the maps and charts from the walls taken from their places and placed in the World's Fair school room. In fact it will be a perfect reproduction, so that one may see exactly what a certain room in Alameda county, California, is.

The furniture and decorations will be changed at intervals and during the Exposition a type of every school in the county will be shown. Specimens of the work from all the schools will also be shown.

In Alameda is situated the University of California, at Berkeley, the largest in the state, with 3,000 students. St. Mary's Catholic College, and Mills' College for Young Ladies, are all important institutions, and it is expected that each will make individual exhibits.

### WORLD'S FAIR NEWS.

—An interesting exhibit of cotton is to be made from Kentucky at the St. Louis Exposition. It has been gathered by Judge H. M. Kearby and Clerk S. D. Luten, of the Fulton county court. Samples of this product will be shown from the earliest period to the stage after picking.

—Exceptionally fine specimens of minerals are already reaching the storage warehouse of the Kentucky Exhibit Association in Louisville for the exhibit at St. Louis next year. Among the shipments received are two barrels of coke from Bell coal from Crittenden county, Ky. The coal was sent to the Ashland Iron & Mining Co. at Ashland, and there coke. Judge T. T. Gardner and Editor Tom Pettit of Bardwell have sent in a box containing various minerals from Carlisle county, which are being analyzed and assayed at the State College at Lexington.

### Latest Information as to Kentucky's Part in the Great Exposition.

—In Kentucky's display of fruit at the St. Louis Exposition next year, there will probably be sent bunches of grapes grown from the seed which came from the city of Jerusalem and which was supposed to be of the same variety as those found by the spies of Moses. Mr. F. Johnson of Louisville received a seed from the grape mentioned, it being brought in by a friend from the Holy City, and planted it in Louisville soil. It grew and bore fruit. The grape is called the "Knight Templar" and is a medium size, reddish color, thin skin and sweet.

They cure biliousness, torpid liver, jaundice, sick headache, constipation, etc. They do not purge and weaken, but cleanse and strengthen. Sold by The Louisa Drug Co.

The Republican State Central Committee, by a vote of eight to five, decided that J. Sherman Cooper is not the governing authority of the party in the Eleventh district. This action was a decided victory for Dr. W. Godfrey Hunter. An effort to try the case on its merits was voted down. The result of the committee meeting was a decided victory for Dr. Hunter over Mr. Edwards.

## THE FORESTRY EXHIBIT

From Kentucky Will Occupy a Most Prominent Place

### AT THE ST. LOUIS EXPOSITION

Assigned Space Near Center of Forestry Building and on Two of the Main Aisles—Chairman Struck Issues Instructions For Preparation of Samples of Logs, Boards, Etc., For the Exhibit.

On two of the main aisles and almost in the center of the Forestry and Fish and Game Building at the World's Fair in St. Louis next year will stand Kentucky's display of her wonderful forest resources and lumber interests. This space has just been assigned to the Kentucky Exhibit Association by Mr. Tarleton H. Bean, the chief of the Department of Forestry of the Exposition. As is readily seen, the forestry display from this commonwealth will occupy an enviable position, and it behooves those interested to make the display one worthy the space given it. To this end Mr. A. N. Struck, Chairman of the Forestry Exhibit Committee of the Exhibit Association, and Mr. William Bos, Field Representative, are issuing their plans.

Chairman Struck has just issued a circular, giving instructions to the logging camps, planing mills and forestry industries of the State, as to how they can best assist him in making the display a success. Logs cut eight feet in length are to be shown. This length has been decided on so the samples

(Sketch showing how large samples are to be displayed in Kentucky's Forestry Exhibit at the World's Fair.)

The method to be followed by the Kentucky Exhibit Association in displaying samples of the State's forestry products and resources is right up-to-date, being recommended by government experts as being the most economical and best plan yet found. Mr. Struck announced that arrangements are to be made to store the logs and board samples for the exhibit in two or three convenient places in different parts of the State. Here his committee will have certain men to prepare the samples so that all shall be finished in the same way.

Besides the logs and boards, there will be shown in the Kentucky space all forms of manufacture from the forest industries. In view of this fact it is hoped by the Exhibit Association that many more lumber firms and corporations and manufacturers will subscribe to the fund being raised to defray the expense of the forestry exhibit, along with the erection of the Kentucky Building and the exhibit to be made in other departments of the exposition. The contributions thus far received range from \$25 to \$100.

### WILL STUDY THE WORLD'S FAIR.

Prominent West Virginia Educator Requests Teachers to be Posted on the Exposition.

Hon. Thomas C. Miller, state superintendent of the public schools of West Virginia, has made the World's Fair of 1904 a feature of every teacher's institute held in the state during the summer of 1903. Institutes are being held in every county and Mr. Miller has caused one afternoon in each week that the institute is in session to be devoted to a study of the World's Fair.

The following is the subject as outlined by Mr. Miller for study and discussion:

- "The Louisiana Purchase Exposition."
- "The Site."
- "Plan of the Grounds."
- "The West Virginia Building."
- "How Shall West Virginia be Represented Educationally?"

As soon as the West Virginia school teachers saw the institute program many of them addressed letters to the Publicity Bureau of the Exposition and received literature which furnished this required information. The school teachers of the state are becoming fully informed upon the World's Fair and short talks will be given on the Exposition at certain hours during the school year.

Some of the leading educational institutions of the country advertise, as a part of the course, a systematic study of the World's Fair.

## TWO STATE SENATORS ENDORSE PE-RU-NA.

HON. J. H. SAUER.

Hon. J. H. Sauer, State Senator from Douglas Co., to the Nebraska Legislature, writes from Frank's Hotel, Omaha, Neb., as follows:

"Having tried Peruna I can commend it to all as a great tonic and particularly good as a remedy for catarrh."

—J. H. SAUER.

Honorable Patrick Kennedy, Member of the Massachusetts Legislature, writes the following letter from the House of Representatives, Boston.

Dear Sir:—I have no hesitation in saying that after having tried dozens of other remedies without relief, I owe my perfect health and clear voice of today to Peruna. I know it to be a cure for indigestion and its attendant affliction, nervous debility. For the six weeks that I was on the platform through the recent campaign I used Peruna regularly, and although I spoke two and three times each day my voice never failed me. I know that Peruna is a reliable cure for bronchial troubles."

—P. J. Kennedy.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

Judge Faulkner in a lengthy written opinion handed down at Manchester granted a permanent injunction against the County Clerk, restraining them from placing the name of W. Godfrey Hunter on the ballots in the Eleventh district as the Republican nominee for Congress. Dr. Hunter gave notice that he would move before Judge Settle, of the Appellate Court at Bowling Green, Monday to dissolve the injunction.

### The Best Remedy For Croup.

(From the Acheson, Kan. Daily Globe.)

This is the season when the woman who knows the best remedies for croup is in demand in every neighborhood. One of the most terrible things in the world is to be awakened in the middle of the night by a whoop from one of the children. The croup remedies are almost as sure to be lost, in case of croup, as a revolver is sure to be lost in case of burglars. There used to be an old-fashioned remedy for croup, known as hive syrup and told, but more modern mothers say that Chamberlain's Cough Remedy is better, and does not cost so much. It causes the patient to "throw up the phlegm" quicker, and gives relief in a shorter time. Give this remedy as soon as the croupy cough appears and it will prevent the attack. It never fails and is pleasant and safe to take. For sale by A. M. Hughes.

The Chinese Minister at Washington is making a strong effort to interest Secretary Hay in China's behalf in the Manchurian troubles. The events at Mukden are not pleasing to Washington officials, but no action will be taken so long as the United States secures and retains trade in Manchuria.
